### PROGRAMS / MAJORS / STUDIES

## FUTURE CAREERS, FUTURE EDUCATION

**ENDICOTT COLLEGE PROVIDES AN EXCELLENT CHOICE FOR STUDENTS TO LEARN FUTURE READY SKILLS OF MANAGEMENT, TECHNOLOGY AND INTERNATIONAL STUDIES IN ASIA.**

- Many classes taught in English
- World-Class International professors
- International student body from 40+ countries
- Opportunity to learn an Asian language including Korean or Chinese
- Exchange programs with universities in the USA, Asia, and Europe
- Internships and placement opportunities with multinational companies
- Scholarships available

Endicott college of international studies develops the next generation of global citizens: students who are actively involved in creating innovative solutions to key issues in a rapidly changing industry 4.0 world.

### MANAGEMENT STUDIES

In the 21st Century, leaders will have to respond to rapid changes in their careers. Students learn to lead, manage and execute, as well as to develop, implement and communicate innovative ideas and creative solutions. This curriculum focuses on real-world leadership & innovation management in a variety of industries rather than one specific discipline.

### TECHNOLOGY STUDIES

Students will develop the knowledge and hands-on skills to specialize in one of the 9 pillars of Industry 4.0: Big Data and Analytics, Autonomous Robotics, Simulation, System Integration, Internet of Things, Cybersecurity, Cloud Operations, Additive Manufacturing and Augmented Reality.

### INTERNATIONAL STUDIES

The program prepares students for an increasing complex world by developing practical skills for solving organizational, social, economic and environmental challenges across geographic, regional, national, and disciplinary boundaries. Competencies such as language, culture, history, economics, are studied in a global context.

### INTERDISCIPLINARY STUDIES

This self-designed degree is available for highly motivated, self-directed students interested in multiple disciplines, or whose career aspirations don't fit traditional academic subjects.

## A CLOSER LOOK: DAEJEON, KOREA

- 5<sup>th</sup> largest city in Korea - 1.54 million people.
- Located in the center of South Korea, a hub of transportation, distribution, and economy... access to every region in Korea within 90 minutes.
- "Asia's Silicon Valley" - 18 universities, 28 government-funded research institutions, and 79 private research institutes with as many as 20,000 researchers.
- More than 900 high-tech firms - largest science center in Korea.

## WORLD CLASS FACILITIES

Opening in 2017, Endicott College of International Studies includes a state-of-the-art building with dedicated collaboration and Industry 4.0 labs. As part of a Digital Campus, the facilities create a culture of innovation, that connect faculty, students and the community to spur economic and social benefit, and expand job opportunities local and abroad.
